

What others are saying about Lenzart!

“Exceptional
service and quality!

“**Lenzart’s staff** is always there when I need them. I love the fact that I never have to be greeted by an automated system, as there is always a friendly voice to answer my calls.

“Lenzart has worked with me to create new display portraits for our studio’s open houses as well as custom designed our banners for events and promotions that we do on-location.

“One of the most powerful tools that Lenzart has provided for our studio is the underclass software Capture Post. This has allowed our studio to photograph large schools and provide them with the correct software and ID’s for the yearbook contracts and for the school’s administrative programs.

“It seems whatever the challenge I present to Lenzart they have found a solution to help me with it. They are more than just a lab, they are friends who care about my business being successful.”

What others are saying about Lenzart!

“Lenzart makes photographing
underclass *easy* ...”

“Shooting tethered eliminates the time-consuming ordering process and ensures that all packages are delivered error free. The entire staff is friendly, helpful, and great to work with. I would highly recommend **Lenzart for underclass** or **any** other lab service that they provide.”

What others are saying about Lenzart!

“ Since offering underclass printing,
Lenzart has made our lives

so much easier

and we couldn't be happier! If we have any questions they are answered immediately, if we need help offering a unique product, they help us figure out the best way to market it. They listen to our suggestions and work with us to make the underclass workflow go smoothly. Oh, and the quality of the prints we receive, what else would you expect from a quality lab like Lenzart, it's great!”
